Weingarten Meeting Rights

As a NAAE bargaining unit member, I have the right to request a Union rep at any time at any meeting with management conducted as part of an investigation whenever I reasonably believe the discussion may result in disciplinary action against me. Should I make that request, the interview should stop immediately until a union rep is present. Management does not have to offer me a union rep or advise of my right to have one; it is my obligation and right to request one.
